

IBRAHIM AMJAD

FULL STACK DEVELOPER

Mustafa Town , Lahore | +92 3084657085 | ibrahimamjad126@gmail.com

SUMMARY

Full Stack Developer & Prompt Engineer with hands-on experience building scalable web applications using React, Next.js, Node.js, Express.js, PostgreSQL, and MongoDB. Experienced in developing REST APIs, implementing JWT authentication, and building real-time applications with Socket.IO. Skilled in writing clean, maintainable code, optimizing application performance, and collaborating in an agile development environments.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap.

Backend: Node.js, Express.js, Python, REST APIs, Socket.IO.

Database: PostgreSQL, MongoDB.

Authentication: JWT, Firebase Authentication.

State Management: Zustand

ORM: TypeORM

API Testing: Postman, HTTPie

AI / Prompt Engineering: Large Language Models (LLMs), Prompt Design, OpenAI API

Version Control: Git, GitHub

Deployment: Vercel, Netlify, Railway

PROFESSIONAL EXPERIENCE

Full Stack Developer (Intern)

Cinnova Technologies — Nov 2025 – June 2026

- Worked remotely in a full-time development environment, contributing to full-stack web applications using React.js, Next.js, Node.js, Express.js, PostgreSQL, and MongoDB.
- Developed and maintained features for Zentia Social Platform, including posts, comments, likes, notifications, and user profile management.
- Implemented secure authentication and authorization using JWT and role-based access control.
- Designed and integrated RESTful APIs for efficient frontend-backend communication.
- Built and enhanced Realtime Chat Room using Socket.IO, supporting multi-room messaging and live user presence.
- Optimized database queries and backend performance to improve application responsiveness.
- Collaborated with team members using Git and GitHub, participating in code reviews and feature development.
- Followed agile development practices while working remotely and managing daily development tasks.

CINNOVA PROJECTS

Zentia Social Platform

- Developed a full-stack social media platform using React.js, Next.js, Node.js, Express.js, PostgreSQL, and MongoDB.
- Implemented posts, comments, likes, notifications, user profiles, and secure authentication.
- Designed REST APIs and optimized database operations for improved performance.
- Built responsive user interfaces with modern frontend technologies.

Realtime Chat Room

- Developed a real-time chat application using React.js, Node.js, Express.js, and Socket.IO.
- Implemented multi-room messaging, online user presence, and instant message delivery.
- Integrated secure authentication and efficient real-time communication features.
- Designed a responsive and user-friendly chat interface.

EDUCATION

Bachelor of Information Technology

Superior University, Lahore, Pakistan

Expected Graduation: Dec 2026

Relevant Coursework:

Data Structures & Algorithms, Database Systems, Software Engineering, Web Development, Object-Oriented Programming

UNIVERSITY PROJECTS

AI Shopping Assistant (Final Year Project)

- Developed an AI-powered shopping assistant using Next.js, React.js, Node.js, and OpenAI APIs.
- Implemented product comparison, personalized recommendations, shopping cart functionality, and user authentication.
- Designed responsive and user-friendly interfaces for seamless shopping experiences.
- Built scalable backend APIs for efficient product management and real-time data processing.
- Focused on performance optimization, maintainability, and clean architecture principles.

ACHIEVEMENTS

- Built 3+ full-stack applications using React, Next.js, Node.js, and PostgreSQL.
- Developed real-time communication systems using Socket.IO.
- Successfully completed a remote full-stack development internship.
- Designed and deployed production-ready applications on Vercel and Railway.
